YEAR IN REVIEW

In a year of deepening economic distress, the most inescapable image was that of the jobless. But any year produces its quantum of sorrow and hope. In 1982 there were the Israeli assault in Lebanon and the first permanent artificial-heart implant in Utah; a pastoral island that time had passed by and, offshore, great warships sunk by modern missiles; the imperial pomp for a fallen Soviet leader in Moscow and the remembered glory of a fallen American princess in Monaco. But the year also brought worthy feats. Among them: an overdue tribute to America's Viet Nam dead and an otherworldly creature who captivated the whole world.
